Please do not create a new account this year if you previously created an account. If you have forgotten your password, as long as you have your username and email address that you used to create the account, there is a "forgot my password" link that will send a password to the email address. If you do not remember the username or email address that you used, please contact the school for assistance.

3. Click on the student you wish to register.

4. Scroll down to the section labeled **online registration**.

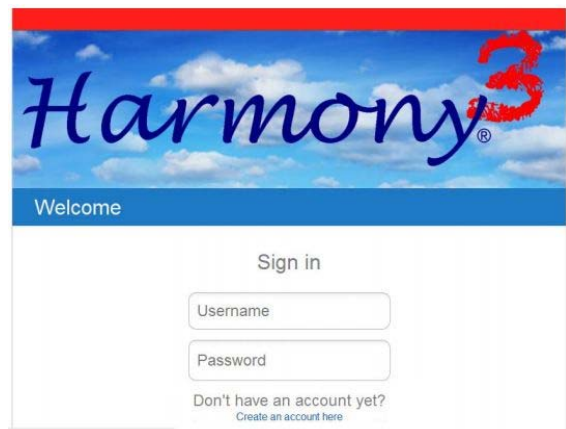

5. Click on the link **update demographic information** and make any changes or additions to the demographic information.

6. If you do not have any changes or additions, scroll down to the bottom and click the checkbox for **No demographic changes are necessary**.

7. After making changes or clicking the checkbox, click **Submit**.

8. After submitting the demographic information, open each **Consent form** with a blue link that does not have a green checkmark, complete, and submit. When all of the consent forms have green checks to the left, you have completed the registration process.
